MISCELLANEOUS.

Each research facility shall, during business hours, allow APHIS officials to inspect and photograph the facilities, property and animals, as the APHIS officials consider necessary to enforce the provisions of the Act, the regulations and the standards. A responsible adult shall be made available to accompany APHIS officials during the inspection process.

On June 19, 2008 at 11:30AM the registrant failed to have a responsible person available to conduct an animal welfare inspection. The research facility could not be inspected for compliance with the Animal Welfare Act, regulations and standards to ensure the health and well-being of the animals. This is the FIRST ATTEMPTED INSPECTION. A responsible person must be available to accompany the inspector on an animal welfare inspection. Correct immediately.

NOTE: If your hours of availability have changed, please contact me at (b)(6), (b)(7)c and leave a message.

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The IACUC shall determine that the proposed activities or significant changes in ongoing activities that involve surgery include appropriate provision for post-operative care of the animals in accordance with established veterinary medical practices.

*** Protocol 2006-027: The protocol states that post-operative care would include the administration of 40mg of oral aspirin daily for the duration of the study. Records indicate the animals are not eating the aspirin in pill form and no efforts have been made to ensure the animals receive the aspirin. Post-operative care must be provided in accordance with the approved protocol to ensure the health of the animals and sound research. An alternative method of administration of the aspirin must be identified to ensure the animals receive appropriate post operative care in accordance with established veterinary practices and to prevent unnecessary duplication of experiments.
Correct by June 3, 2008.

REGISTRATION.

A research facility shall notify the AC Regional Director by certified mail of any change in the address within 10 days after making such change.

*** The registrant has changed its business address and identified an animal housing site since the last inspection in 2007. However, the registrant failed to notify the Eastern Regional Office of the change in address. Notification of any change in address must be submitted to the Eastern Regional Office as outlined in the regulations of the Animal Welfare Act. The registrant must notify the Eastern Regional Office of the new addresses to facilitate enforcement of the regulations and standards of the Animal Welfare Act. Correct by October 6, 2008.

NOTE: There are no animals present for this inspection. This registrant does not have an animal facility and has not housed animals at any facility since September 2006. No regulated animals have been used and no regulated activity has been conducted since September 2006.
